

Working with Kings Health Partners to develop a questionnaire to find out how service users feel about sharing details across the hospitals.

For	Service user consultants or volunteers interested in patient information / confidentiality etc.
To do what?	To attend a meeting to work with staff to develop some questions that will be part of a questionnaire to find out what people think about a proposal to share some (non clinical) patient details between the hospitals that make up Kings Health Partnership. Meeting date: 13th December 2 – 4pm Kings College Hospital
Background	Kings College Hospital, Guys & St. Thomas', & South London & Maudsley NHS Foundation Trust have come together to form Kings Health Partners – an academic health sciences centre. There is some work going on to explore how administrative systems could be improved to make sure that personal details such as address etc are kept up to date when there are changes. Part of this work is to find out what people who use services in all of the hospitals think about the idea of sharing some basic information across the three hospital sites. The aim is to develop a questionnaire that allows service users / carers to identify their support for the idea as well as any concerns that they may have. It is important that people who use or have used SLaM services are involved in developing the questionnaire to ensure that we are asking the right questions.
What skills and / or experience do I need?	As a paid opportunity this would suit someone who: <ul style="list-style-type: none"> • Has an interest in issues around information sharing • Can share the service user perspective, drawing on their own experience, but also others experience gained from involvement work • Has a positive attitude – can use their own experience constructively to contribute to improvements • Has experience of and confidence in participating in meetings • Has experience in service improvement work <p>If you are interested but are not on the 'involvement register' (the mechanism for paying people) or do not match the points above, and would like to attend the meeting as a volunteer, please do get in touch. This might be a good way to build your confidence & understanding of involvement.</p>
Paid?	For those on the involvement register, this would be paid at the meetings rate of £10 per hour
Support	Support around this work will be available from Alice Glover – Patient & Public Involvement Lead for Mood, Anxiety & Personality Clinical Academic Group
