

Changes to community mental health services

- In 2012 people gave their views about community mental health services. We used these views to develop some plans.
- In 2013 we shared our ideas about changes to community mental health services. In September and October about 90 people took part in meetings to find out more and give their feedback. In November nearly 200 people came to the Lewisham Mental Health & Wellbeing Stakeholders Day. We gave information and held focussed discussions about our plans.

We would like to keep you updated and involved. There will be a meeting on:

January 15th 2014

From 3.30 – 5.00 pm at Civic Suite, Catford

All welcome. **To book a place** or for more information about the meeting or the plans please

contact: **Alice Glover:** Tel: **020 3228 0959**
